Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 11, 108 and 110 are rejected under 35 U.S.C. 102(e) as being anticipated by Uno et al. (U.S. Patent No. 6,449,239 B1).

In re claim 11, Uno (e.g., Fig. 8) discloses a semiconductor device, comprising:

a first layer (100);

a chalcogenide layer (recording layer 104) overlying the first layer;

a silver layer (107) overlying the chalcogenide layer; and

a barrier layer (109) on the silver layer, the barrier layer essentially transparent to radiation.

In re claim 108, Uno discloses the device of claim 11, wherein the barrier layer (resin) is transparent to light (column 11, lines 13-16).

In re claim 110, Uno discloses the device of claim 11. The limitation, "wherein the barrier layer reduces agglomeration from the silver layer" is a recitation of the intended use of the device. Terms that simply set forth the intended use, a property

inherent in or a function, do not differentiate the claimed composition of these elements from those known to prior art.

Allowable Subject Matter

Claims 12-15 and 109 allowed.

Claims 111-115 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 11-15 and 108-115 have been considered but are moot in view of the new ground(s) of rejection.

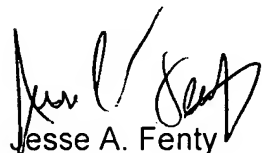

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jesse A. Fenty whose telephone number is 571-272-1729. The examiner can normally be reached on M-F 5/4.
